Dear Amanda,

I know about your brother Carson when he was five he drowned. I know how you feel my Dad is in Iraq and I miss him like you miss Carson. If you start to think about him and you get sad just pray or think of some like a story you heard or make up a new one. It helped me I think it can help you. I'm going to give some stuff you can do when you get sad. You can go outside, ask if you can go to the park, read a book, play the computer, or just talk to someone. I hope the things I listed above help good  
bye

Your friend,

---
